Part B for December 1953.

SUBJECT

Construction of the Regulated Market area by the Davanagere city Municipality out of Regulated Market funds - Report of the Director of Anti-corruption and Efficiency Audit

WD 01425—GPB—25 000—15 9 1952

Main file 522/Su.
1570/ML
Extract taken on 9.6.52

This file is worked up on my minute dated 1/2December 1952 In his preliminary report dated 6-1-53, the Director of Efficiency Audit suggested that the Chairman of the Regulated Market Committee and the President of the Municipal Council may jointly inspect the several works with the help of the Secretary of the Committee, the Municipal Commissioner and the Executive Engineer, Davangere Division, and reach a settlement.' I agree with that proposal which was agreed to by my colleague the Minister for Local Self-Government. I do not know whether any action has been taken on that order. Please examine and put up.

The report of the Director of Efficiency Audit about several irregularities committed is fairly exhaustive and convincing. The contention of the Municipal President, cannot be upheld, namely, that there was no need to obtain concurrence of the Regulated Market Committee either for the estimates or for the execution of the works.' The Regulated Market Committee is the pay master and it was under a specific Government Order that this work was entrusted to the Municipal authorities. The Government Order, as I understand, was passed with a view to expedite speedy execution of the work under the efficient management of the municipal authorities. But, contrary is the result I find that it has given room for a lot of mischief being played right through the very nose of the Municipal Commissioner, a responsible officer who was expected to look to observation of rules. For reasons best known to himself, the Municipal Commissioner has allowed out of 40 estimates costing Rs.1,54,980 about 25 to be disposed of in an arbitrary manner, as clearly reported by the Director. It is unpardonable and inexcusable How a responsible officer like Municipal Commissioner could have allowed this huge fraud on public money being

committed is beyond one's comprehension. It is highly condemnable. Moreover, the irregularities noted by the Director of Efficiency Audit go to show that no rule has been observed in all these matters. Proper tenders have not been called for, work orders have not been issued to contractors by any authority. In fact, in the words of the Director "everything seems to have been done entirely at the discretion of the Overseer Sri Siddappa apparently without much control from the higher executive staff." It is strange to find that estimates in some cases have not passed through the Municipal Engineer, which is rather very extraordinary. Unless the Overseer had some patron to whom he could look for these irregularities, or unless he had the overriding authority of somebody who could brush aside the Municipal Engineer, this irregularity could not have happened at all. It is not possible to construe it in any other manner.

3 The Director of Efficiency audit also brings forth how the quality of the work done is very very poor. For instance, he mentions that a culvert of vents, which was constructed a year ago, has already shown signs of disrepair.

4 Therefore I am thoroughly convinced that action will have to be taken immediately on the lines suggested by the Director of Efficiency Audit in para 5 of his report dated 14-4-53. The Executive Engineer, Davangere Division, will have to check up as indicated there and submit a report within a month, with a request that he shall not give room for any delay. In the meanwhile I agree with the Director of Efficiency Audit that Sri Siddappa, the Overseer, has to be kept under suspension until further orders. His explanation may be called for and his case to be dealt with separately.

5 The question of apportioning the cost in moiety between the Regulated Market Committee and the Davangere Municipality has to be further examined. I agree with the Director that on

on principles of equity, the expenditure incurred in respect of roads (including the culvert) should be apportioned between the Municipality and the Regulated Market Committee. I know that the value of the municipal land surrounding the Regulated Market Committee is appreciated very much and that these roads are much more useful to the Municipality rather than to the Regulated Market Committee. Anyway the two are indissolubly linked up and both the Regulated Market Committee and the Davangere City Municipality stand to gain by it. There is much force in the observation of the Director of Efficiency Audit that the cost of roads should be apportioned between the Municipality and the Regulated Market Committee. This may be separately worked out.

6. I am sorry that valuable money of the Regulated Market Committee has not been properly spent due to the negligence of Government servants concerned.

From a close study of the note given by the Dir. of Efficiency Audit, it is seen that the Municipal authorities in Davangere i.e., Ml.Commissioner, Asst. Engineer and the Sub-overseer supported by the Municipal Council which

2

committed is beyond one's comprehension. It is highly condemnable. Moreover, the irregularities noted by the Director of Efficiency Audit go to show that no rule has been observed in all these matters. Proper tenders have not been called for, work orders have not been issued to contractors by any authority In fact, in the words of the Director "everything seems to have been done entirely at the discretion of the Overseer Sri Siddappa apparently without much control from the higher executive staff." It is strange to find that estimates in some cases have not passed through the Municipal Engineer, which is rather very extraordinary. Unless the Overseer had some patron to whom he could look for these irregularities, or unless he had the overriding authority of somebody who could brush aside the Municipal Engineer, this irregularity could not have happened at all It is not possible to construe it in any other manner

3 The Director of Efficiency Audit also brings forth how the quality of the work done is very very poor. For instance, he mentions that a culvert of vents, which was constructed a year ago, has already shown signs of disrepair.

4 Therefore I am thoroughly convinced that action will have to be taken immediately on the lines suggested by the Director of Efficiency Audit in para 5 of his report dated 14-4-53. The Executive Engineer, Davangere Division, will have to check up as indicated there and submit a report within a month, with a request that he shall not give room for any delay In the meanwhile I agree with the Director of Efficiency Audit that Sri Siddappa, the Overseer, has to be kept under suspension until further orders. 7 From a close study of the note given by the Dir. of Efficiency Audit, it is seen that the Municipal Authorities in Davangere i e., Ml.Commissioner, First Engineer and the Sub-overseer supported by the Municipal Council which

has indirectly given its consent for all these actions, are responsible for these irregularities Therefore, the questions regarding (1) keeping the Suboverseer Sri Siddappa under suspension, (2) obtaining the explanations of Sri Ramanuja Iyengar, Assistant Engineer and the explanation of the Municipal Commissioner have to be dealt with in the Municipal Branch.

8 The second question which has been suggested for consideration is meeting the cost of the Road (from the Jagalur-Davengere Road upto the Regulated Market - a distance of 4 furlongs) by the Municipality and Regulated Market in equal proportions. This has to be dealt with in the Municipal Branch in the initial stages.

9 The third point for decision is how far the Municipal Council have discharged their duty in carrying out the works entrusted to them by the Regulated Market Committee, whether the R M C have at any stage reviewed the progress of work, whether they have met to discuss this subject, whether they laid down any condition, before entrusting the work, whether members of the R M C. were also members of the Ml.Council and whether the Secretary of the Committee had at any time given a report to the Committee regarding the progress achieved and whether they suggested any course of action to be followed by the Ml Council in the matter of calling for tenders or not. This matter may be persued by the A & F Branch Or this may be persued by the Ml.Branch, as it will facilitate to deal this subject thoroughly in view of the fact that the other two subjects are being dealt with by the Muncipal Br.

10 The fourth point for decision is to get the opinion of the Executive Engineer, Davangere, to know how far the

Regulated Market Area works undertaken by the Davanagere Municipal Council — Calls for explanation of the Municipal Commi

1947
MC

the money given already can be accepted, with reference to the nature of materials used. This subject also may be dealt with by the Municipal Branch in the beginning and then transmitted to the A. P. Branch, at the proper stage.

Secy. I. G. (Id.) V.H. 3/6/53

"Alright. Take immediate action on the points to be tackled by us and pass on file to A. ... ectt. I would like to be kept infd. once a fortnight about action taken.

of the Municipal Council is deputed to serve on the newly constituted Regulated Market Committee. It has perhaps to be understood from the report that the Regulated Market Committee has nothing to say about the irregularities committed and its funds wasted in respect of its works executed by the Municipality. There is however no indication to the effect that the report of the Special Officer, Efficiency Audit, in respect of these works was brought to the notice of the Regulated Market Committee by the Municipal Commissioner before the ~~latter~~ former read and recorded the outlay statement furnished by the latter. If it is not desirable to get the opinion of the Chief Marketing Officer, Bangalore, and that of the D.C. Chitaldrug (President of the Regulated Market Committee) on the report in question of the Special Officer, Efficiency Audit, is a point for consideration.

18) The Municipal Commissioner has not returned the report ~~in~~ of the Special Officer. It will be called for

19) Refs Para 7, 8, & 9 ante.

20) For the present, one out of several points may be persued on this particular

Please take a copy of the comms letter & persue other points immediately

file. to meeting a moiety of the cost of the road leading to Jagalur Danangere Road, by the M I cl. The other subjects will be taken up for consideration on separate files. If this is not done, there will be confusion and delay in the disposal of all the subjects involved in the file.

21) The M I cl have stated that they are not willing to meet half the cost of the road ~~from~~ referred to above, on the ground that the M I cl have spent Rs 23,000/- on the works in the Reg Market area over and above what the Reg Market committee had provided for. The Resolution of the cl is for perusal. In this connection, it has to be stated that there was no condition whatever, that the M I cl should meet a portion of the cost of the road. As such it may not be possible to compel the M I cl to meet ½ of the cost of this road. In fact, the M I cl has to maintain this road at a heavy cost as the road is formed in a black cotton soil.

22) The M I cl will be instructed to include the R Market area in the M I limits, ~~if this is not done hitherto~~ by extending the M I limits of the city and to maintain this

To

The Municipal Commissioner,
Davangere City Municipality,
(thro' The President)

Sir,

Subject - Meeting the cost of the road (from the Jagalur-Davangere Road upto the Regulated Market - a distance of about four furlongs) by the Municipality and the Regulated Market in equal proportions

---

With reference to your letter No H C 89/53-54 dated the 28th August 1953 on the above subject, I am directed to state that the Regulated Market Area may be included in the Municipal limits by extending the Municipal limits and the road (i e , from the Jagalur-Davangere Road upto the Regulated Market) as well as other roads may be maintained in proper condition by the Municipality

Yours faithfully,

Local Self Government & Planning Departments,
BANGALORE

Sir

Subject - Meeting the cost of the road (from the Jagalur - Davangere road up to the Regulated Market a distance of about 4 - furlongs) by the Municipality and the Regulated Market in equal proportions
---

With reference to your letter No L 12296/CH 131-53, dated, 24th December, 1952 and subsequent reminders thereon on the subject mentioned above and directing me to send up proposals to extend the Municipal limits as to include Regulated Market, I write to submit herewith for the kind information of Government printed notification No L 9209 Ml 68-48-6, dated, 11-2-1949, indicating the present Municipal boundaries sanctioned by Government from which it will kindly be seen that the existing Regulated Market grounds of Davangere are well within the sanctioned Municipal limits and as such it will not be necessary to submit proposals to include the Regulated Market Area within the Municipal limits afresh I also enclose herewith for favour of perusal of Government a blue print indicating the existing Municipal limits indicating therein the Regulated Market Area

Forwarded,

(B I Gopala Rao,)
PRESIDENT,
CITY MUNICIPAL COUNCIL,
DAVANGERE

Yours Faithfully,

(K Narasimhaiengar,)
Municipal Commissioner,
Davangere City Municipality
